

REKHA ATLURI

Data Analyst | Power BI Developer | AI/ML Engineer

Houston, TX 77054 · +1 (832) 795-0401 · atlurirekha3006@gmail.com · [LinkedIn](#) · [Github](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst and Power BI Developer with **3+ years of experience** building, maintaining, and validating recurring dashboards and reports using **SQL, Python, Power BI, DAX, and Excel**. Proven ability to deliver accurate, executive-ready outputs tied to operational, clinical, and financial initiatives. Skilled in ETL processes, data validation, root-cause analysis, and cross-functional collaboration. **Microsoft Certified PL-300 Power BI Data Analyst Associate**. Published researcher (Springer, 2023) in deep learning. Pursuing **MS in Engineering Data Science at the University of Houston (GPA: 3.96/4.0)**. Open to Data Analyst, Power BI Developer, and AI/ML Engineer roles.

EDUCATION

Masters in Engineering Data Science
University of Houston, TX · GPA: 3.96 / 4.0

Aug 2024 – May 2026 (Expected)

Bachelors in Computer Science and Engineering
MLR Institute of Technology, India · CGPA: 9.43 / 10

Aug 2019 – May 2023

PROFESSIONAL EXPERIENCE

Graduate Assistant – Data Analyst
University of Houston · Houston, TX · Part-time, On-site

Sep 2024 – Present

- Built and maintained **5+ recurring Power BI dashboards** integrating SQL, Excel, and SharePoint data sources, delivering executive-ready reports on space utilization across **100+ campus facilities** aligned with operational and planning initiatives.
- Developed the **Space Utilization Efficiency Score** using SQL and Python across **15,000+ records**, covering 170+ buildings, 16M+ gross sq. ft., and 38,000+ rooms — identifying trends, anomalies, and outliers to support data-driven planning and resource allocation.
- Automated MP1 financial reporting workflows using Excel and Power Query, **reducing manual preparation time by 35–40%** and standardizing processes for consistent, repeatable outputs.
- Executed end-to-end ETL and data validation including reconciliations, cross-source comparisons, and variance analysis prior to every report release, ensuring high accuracy, completeness, and data reliability.
- Performed root-cause analysis on data discrepancies — investigated source systems, identified inconsistencies, and implemented corrective actions to maintain data integrity across all reporting pipelines.
- Translated complex datasets into actionable insights through visualizations, trend analysis, and KPIs, enabling stakeholders to identify performance gaps and optimization opportunities.
- Maintained detailed documentation including data definitions, transformation logic, validation processes, and SOPs to ensure compliance with data governance standards.
- Collaborated with cross-functional stakeholders to define reporting requirements, validate metrics, and deliver outputs aligned with business and operational needs.

Analytics Developer

May 2023 – May 2024

Techouts · Hyderabad, India · Full-time, On-site

- Designed, maintained, and refreshed **12+ Power BI dashboards** tracking **50+ operational KPIs** such as throughput, cycle time, and capacity utilization across Adobe Analytics, Google Analytics, WebEngage, and AppsFlyer.
- Implemented **20+ custom JavaScript tracking events**, improving data collection accuracy and increasing actionable insights by approximately 30%.
- **Reduced tracking discrepancies by 40%** through structured data validation, debugging, and QA/QC processes — improving overall data accuracy and reliability.
- Built and maintained automated ETL processes and reporting workflows, ensuring consistent data integration and reducing manual intervention in reporting processes.
- Collaborated with business and marketing teams to translate analytical findings into actionable recommendations, supporting campaign optimization and performance improvement.
- Documented validation procedures, metric definitions, and reporting workflows, ensuring adherence to data governance standards and consistency across analytics deliverables.

Web Designer & Developer Intern

Feb 2022 – Mar 2022

Oasis Infobyte · Hyderabad, India · Remote, Internship

- Developed responsive web applications including a landing page, portfolio site, and real-time temperature converter using HTML, CSS, and JavaScript.
- Improved UI/UX design and front-end functionality, enhancing usability and overall performance.

KEY PROJECTS

Campus Analytics and Dashboard Project – University of Houston

Power BI · SQL · DAX · Power Query · Excel · SharePoint

- Developed **5+ interactive Power BI dashboards** integrating SQL, Excel, and SharePoint data sources using Power Query for data cleaning and transformation.
- Designed and implemented **20+ DAX measures and KPIs** to support utilization tracking, trend analysis, and performance monitoring across 100+ campus facilities.
- Automated data refresh processes and standardized reporting templates, **reducing manual reporting effort by approximately 30%**.
- Analyzed space utilization data across 100+ campus facilities, identifying trends and usage patterns to support operational planning and decision-making.

Fundus Image-Based Deep Learning for Early Diabetic Retinopathy Detection – Springer Publication

Python · TensorFlow · Keras · Inception-ResNet-V2 · OpenCV · Scikit-learn

- Developed a deep learning classification model using Inception-ResNet-V2 achieving **92% accuracy**, AUC-ROC 0.94, Precision 89%, Recall 91% across five diabetic retinopathy severity levels.
- Preprocessed and augmented **10,000+ retinal fundus images**, improving model generalization and reducing classification error by approximately 20%.

House Price Prediction – Ames Housing Dataset

Python · Pandas · Scikit-learn · XGBoost · Matplotlib · Seaborn

- Performed EDA on **1,500+ housing records** and developed regression and ensemble models achieving **RMSE 0.12, MAE 0.08, R² improved by 0.15** through feature engineering and hyperparameter tuning.

- Applied data cleaning, feature engineering, and multicollinearity handling techniques to improve model accuracy and interpretability.

Power Apps – Workflow Automation Project

Microsoft Power Apps · Power Automate · SharePoint · Power Query

- Developed and deployed **3+ SharePoint-integrated Power Apps** solutions to digitize internal data collection, validation, and approval workflows.
- Implemented field-level validation and conditional logic, **reducing incorrect submissions by 25–30%** and manual processing time by approximately 35%.

TECHNICAL SKILLS

Reporting & BI: SQL, Power BI, DAX, Microsoft Excel (Advanced), Power Query, KPI Reporting, Dashboard Development, EDA, Data Visualization

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), R, JavaScript, HTML, CSS

Data Validation: Data Cleaning, Data Transformation, Reconciliation, Cross-source Comparison, Variance Analysis, Root-Cause Analysis, QA/QC, Data Profiling

Databases: MySQL, Microsoft SQL Server, SSMS, Relational Databases, Query Optimization, Joins, Aggregations

Automation: Power Query, Power Apps, Power Automate, SharePoint, Workflow Automation, Process Optimization

Cloud: Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform (GCP), Terraform, Kubernetes, Docker

ML & AI: TensorFlow, Keras, OpenCV, XGBoost, Scikit-learn, Supervised Learning, Model Evaluation, Feature Engineering

Data Engineering: Data Modeling, ETL Processes, Data Warehousing, ERP Systems

CERTIFICATIONS

Microsoft Power BI Data Analyst Associate (PL-300) · Microsoft · ID: 7F5FBA55048D8585 *May 2026*

Microsoft Power Platform Fundamentals (PL-900) · Microsoft · ID: D2E497EE412E8890 *Apr 2026*

Data Analysis & Visualization – Excel and Power BI · Hewlett Packard Enterprise (HPE DSI) *Mar 2026*

Scientific Programming with Python · Hewlett Packard Enterprise (HPE DSI) *Mar 2026*

Developing Containerized Applications on Google Cloud · Google Cloud Skills Boost · Completion Badge *2025*

Deploy Kubernetes Applications on Google Cloud · Google Cloud Skills Boost · Skill Badge *2025*

Introduction to Terraform on Azure · LinkedIn Learning *Nov 2025*

Cloud Observability & Operations: Security, Governance, Monitoring · LinkedIn Learning *Nov 2025*

Cloud Computing: Understanding Networking · LinkedIn Learning *Nov 2025*
